

INGENIO COMPACT

Uninterruptible Power Supply

3-Ph from 10 to 20 kVA

Applications

- Networks and servers
- Small and medium data centres
- Telecommunication

Highlights

- On-line double conversion
- Transformer free
- Full IGBT technology
- Parallel redundant configuration
- Built-in batteries

BORRI

INGENIO COMPACT

Uninterruptible Power Supply
3-Ph from 10 to 20 kVA

Features and benefits

- On-line double conversion mode for total load protection.
- ECO mode for low running costs and environmental impact.
- Full rated output power, ensuring optimal UPS sizing and utilization.
- Transformer free design for light small size layout.
- Full IGBT technology and electronic PFC, ensuring 0.99 input PF and low THDi for maximum upstream sources compatibility.
- Wide input voltage range to save battery life.
- Wide range of configurations with internal and external batteries for low TCO compact solutions.
- Parallel-redundant up to six units, to increase system redundancy.
- Innovative design allows for fast installation.
- Removable tray design for easy battery maintenance.
- Comprehensive set of communication options for total remote monitoring of equipment operation.
- Fully compliant with all international product standards for maximum quality guarantee.

Main options

- Isolation transformer.
- Transformers/autotransformers for voltage adjustment.
- Battery voltage temperature compensation.
- External maintenance bypass wall-mounted box.
- External battery cabinets for long autonomy times.
- Parallel kit.
- Common battery.

Autonomy time in minutes with different types of internal batteries

INGENIO COMPACT technical data

Rating (kVA)	10	20
Nominal power (kW)	10	20
UPS dimensions WxDxH (mm)	440x800x800	
UPS weight (kg)	75	76
UPS weight with internal battery (kg)	150	165
External battery module dimensions WxDxH (mm)	500x650x1200	
Battery configuration	Internal (standard): 180 cells; external: 156/240 cells	Internal (standard): 216 cells; external: 192/240 cells

Input

Connection type	Hardwired 4w
Nominal voltage	400 Vac 3-phase with neutral
Voltage tolerance	-20%, +15% (rectifier); ±10% (bypass)
Frequency and range	50/60 Hz, 40 to 70 Hz
Power factor	0.99
Current distortion (THDi)	<3%

Output

Connection type	Hardwired 4w
Nominal voltage	380/400/415 Vac 3-phase with neutral
Frequency	50/60 Hz
Power factor	1
Overload capacity	110% for 60 min, 125% for 10 min, 150% for 1 min
Efficiency (AC/AC)*	Up to 98%

Connectivity and function extensions

Front panel	Touch screen display
Remote communication	Included: serial RS232; backfeed protection monitoring contact, remote EPO contact. Optional: 2 slots for SNMP adapter, ModBus-RTU, contact relay card
Optional function extensions	Isolation transformer; transformers/autotransformers for voltage adjustment; external maintenance bypass; custom battery cabinets; wall-mounted battery fuse switch box; battery thermal probe; parallel kit; other options on request

System

Protection degree	IP 20
Colour	RAL 9005
Installation layout	30 cm wall-gap
Accessibility	Positioning casters; bottom cable entry

*according to IEC/EN 62040-3

Other features

Environmental

UPS operating temperature range	0°C to +40°C
UPS storage temperature range	-10°C to +70°C
Altitude (AMSL)	< 1000 m without power reduction, > 1000 m with reduction of 0.5% per 100 m
Audible noise at 1 m (dBA)	<52

Standards and certifications

Quality assurance, environment, health and safety	ISO 9001:2008, ISO 14001:2004, BS OHSAS 18001:2007
Safety	IEC/EN 62040-1
EMC	IEC/EN 62040-2
Environmental aspects	IEC/EN 62040-4
Test and performance	IEC/EN 62040-3
Protection degree	IEC 60529
Marking	CE

INGENIO COMPACT series options

	Description	When do I use it
 	Parallel kit	When the unit is to be paralleled for load sharing
 	Backfeed protection contactor	To be fully protected against backfeed energy upon static bypass failure
 	Input isolation transformer in extended cabinet	To galvanically isolate UPS from load or to change system's earth arrangement
 	Internal battery temperature probe	When the unit has internal batteries, for charging voltage compensation with temperature
	Dry contact relay card	To send UPS status to PLC's, SCADA's or AS400's by voltage free SPDT contacts
	RS485 ModBus-RTU port	To send UPS status to BMS's by RS485 connection and ModBus-RTU protocol. For remote monitoring and remote service
	Web/SNMP Adapter	To send UPS status to BMS's by Ethernet connection and SNMP or ModBus over IP protocol. To monitor UPS status by any internet browser from workstations. To receive SMS or e-mail alerts from the UPS on any portable device
 <p style="text-align: right;">Included</p>	Input terminal block for remote EPO	When the Emergency Power Off (EPO) has to be commanded by a remote control button
